NEW Wide Orifice Pipette, PP

- Sampling small volumes of viscous substances
- 10mL capacity with 0.1mL sub divisions

Translucent polypropylene. Resistant to breakage. Blue graduations, ring mark and inscriptions. Use with pipettor. Recommended cleaning with mild alkaline detergent up to 60°C.

Note: Exposure to temperatures above 60°C may cause volume changes. Additional sizes available upon request.

102774-0010 $15.06 each

NEW Graduated Bottles, PC with PP Closures

- Autoclavable and leakproof
- Glass clear, durable and highly break resistant
- Graduated in metric and English;
- Very high quality

Boston Round bottles, Narrow Mouth. Use with biologicals, liquids, reagents, media, buffers and aqueous solutions. Manufactured in Class 10K cleanroom. Available in packs or shrink wrap trays.

NEW Flip & Spray™ Bottle PE/PP

- Uninterrupted spraying
- Parts in contact with media made of PP, PE, silicon and stainless steel
- Nozzle diameter 0.6 mm and continuously adjustable
- Amount sprayed per stroke: 1.2 ml ± 0.1

These unique 250, 500 and 1000mL reusable polyethylene Spray Bottles with a polypropylene sprayer have excellent chemical resistance and will perform upright or inverted. The limber silicone tubing attached to a stainless steel weight with a PP filter remains immersed in the liquid in the upside down position and allows the product to work. This unique feature lets a user spray conveniently from any direction while reaching many inaccessible areas. Adjust the spray knob to obtain a fine mist to a steady stream.
