Certificate of Compliance

Kartell Quick Disconnects, Low Density Polyethylene

Dynalon Products Covered:

228705, 228715, 228725, 228765, 228775, 228785

Regarding our Low-Density Polyethylene Kartell Quick Disconnects, I wish to inform you that these are manufactured in Italy with Low Density Polyethylene resin. Batch information such as expiration date is included on Kartell package labels when full cases are ordered.

Polyethylene quick disconnects are useful for joining tubing of glass, rubber, or plastic. Plastic Tubing Disconnects fit tightly together. They are tapered to accommodate a range of diameters. Replaces expensive adapters.

Compliance Information (provided by manufacturer):					
BSE/TSE Free	Yes	FDA Compliant	Yes	RoHS 3	Yes
California Proposition 65	Yes	Reach	Yes		
Mfg. Part Numbers	434, 435, 436, 535, 536, 537				
Mfg. Certifications	UNI EN ISO 9001:2015		UNI EN ISO 14001:2015		

Please advise if you require any further information.

Regards,

Robert Pfeil
